29 November 1993

GENERAL ORDER
NO. 31-93

I. **AUTHORITY:** Verbal direction of the Principal Deputy Director, DLA, on 16 November 1993.

II. Pursuant to cited authority and effective 5 December 1993, the Office of Information Services, Corporate Administration (CAAI), is disestablished. Its missions, objectives, and associated resources are transferred, in place, to the newly established Executive Directorate (Information Services) (CAN). It is organized under the Deputy Director (Corporate Administration) as follows:

A. Executive Director (CAN), and Chief Information Officer, responsible for promulgating and implementing concept of information resources management (IRM). Provides overall DLA IRM expertise, policies, planning, technical support and oversight/reviews. Serves as the DLA focal point for information management/architecture concepts, policies, methodology, procedures, and tools. Assures optimum, cost effective computer operations.

B. Assistant Executive Director (CAND), and Deputy Information Officer, responsible for technical oversight and direction of:

1. DLA Acquisition Contracting Office (DACO), a management support activity, which manages the life cycle contracting process.

2. Defense Automated Addressing System Center (DAASC), a management support activity, which designs, develops, tests, implements, operates, and maintains systems and provides connectivity and logistics systems interoperability.

3. DLA Systems Automation Center (DSAC), a DLA primary level field activity.

C. Policy Teams

1. Planning, Policy, and Control (CANP), which promulgates and implements the concept of IRM.

2. Information Management/Systems Engineering (CANSE), which advocates and implements the application of information management principles in identifying, organizing, and planning accomplishments of functional requirements for information systems.

D. Operations Teams

1. Technology Integration (CANI), which provides technological support through assistance, guidance, and policy in all areas of information technology and ensures DLA business processes are optimized through the use of new and innovative information technology.

2. Technology Management (CANM), which is responsible for the management, oversight, and direction of extensive IRM support through the Material Management Business Area Team (CANMM); the Acquisition Business Area Team (CANMA); and Corporate Support Team (CANMC) which includes Corporate Administration, General Counsel, and Financial Officer.

3. Program (CANR), which manages the development and initial implementation of major programs and initiatives having information services wide implications.

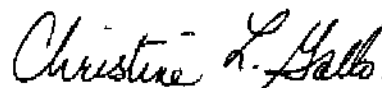

GENERAL ORDER

CAIL

NO. 31-93

III. Administrative support will continue to be provided by the DLA Administrative Support Center.
